Sports Premium spending 2018/2019 so far and expected impact:

Playground sports equipment (huff and puff sets): £500

£500 pounds has been spent to replenish our playground equipment. Sport-leaders from Y5 will be trained by 'Arena' in the summer term to increase meaningful activity/ies during lunch-time plays.

Impact: more children being active during lunch-time play – better physical and mental health. Also leads to better behaviour and learning.

Sustainability: Most of the resources will endure the test of time but we will have to monitor use and decide what needs replacing and how often.

New sports equipment and replenishing PE stock: £2000

New sports equipment has been purchased for the school and afterschool clubs. This supports us providing quality PE lessons for our children.

Impact: better lessons which have richer content and structure. The lessons will also give the children the opportunity to try out new sports.

Sustainability: Most of the resources will endure the test of time but we will have to monitor use and decide what needs replacing and how often.

Mark Wickett Coaching: £1500 (2 terms 1 day a week)

Mark is a multi-skills sports coach. He has worked with our KS1 and foundation children in developing good fundamental sports and exercise skills. Working on improving children's fundamentals is vital and has been raised as an area for improvement by the new 'Minsister for sport':

"In her first major sport speech since taking on the role in November, Davies will call for schools to ensure children are "physically literate".

Davies, 43, says children must be given "fundamental" skills needed in order to build "a sporting habit for life"."

Mark will be working with us in the summer term to give the children the opportunity to try new sports such as hockey and 'ultimate-Frisbee'.

Impact: The children have improved and developed their fundamentals; they have also improved their listening and discipline for sport in general. (Mr Wickett has been very impressed by our school and children and has left 2 other local primary schools so that he can work with us more.)

Sustainability: Staff observe and support the lessons so that they are then given indirect CPD. The skills that the children improve will enable them for more success in a wider range of sports as the move through our school and beyond.

Arena Membership: £3100 –

This package is a gold package and gives us access to the following:

- 4 x programme support days ie: Sugar Smart Leaders, TA Sugar Smart training, Impact and Evidence day, Playground Leaders, Imoves, Math/Literacy trail day, Sugar Smart 30:30 day, Sugar Smart buddies, H&WB MOT, Alternative Sports Day (more details on each day is attached)
- 1 x 12 or 2 x 6 week block of Sugar Smart, curriculum delivery (including alternative sports) or Wild Tribe Delivery
- 2 x 2.5 hours CPD inset in school or one whole day
- Gym SOW Photo Pack
- Sugar Smart Blast DVD

- Use of the Absolute Education Platform - this is an amazing programme that tracks all your ASC, highlight which pupils are highly active, non active, reports can be easily produce to show SEN, PP pupils involvement, it even collates all your School Games Mark data. If you would like a demo, let me know
- This will include advice and guidance, Bikeability, partnership updates, monthly challenges, County PE Conference and Outdoor Learning Conference (discounted), sports ability festival and access to CPD opportunities.

Impact: The children have been able to participate in competitions and festivals over this academic year. Many new children have competed for the school who have never taken part in interschool competitions before.

Sustainability: The sugar smart, playground leaders and 2 staff meetings will be attended by staff. This will help towards CPD for the school and will allow us to train future staff and children around these areas without the need for further cost/training.

Swimming: £3000 (This may reduce depending on parental contributions):

It is of major importance that children have access to Swimming instruction as part of primary PE and the sports premium is expected to cover or support the cost of this.

This year children from Years 2, 4 and 6 are receiving instruction and this is will continue to be our target group as it will start by giving (as a minimum) water confidence, basic swimming ability and concluding with children who can swim 25m with good technique. It will also bring the talent and more natural swimmers a chance to develop their techniques and move towards life-saving skills.

Impact: physical and mental health benefits

Sustainability: Without the sports funding it would be harder to maintain this without increase parental contribution. It does have sustainability by giving children a sport to continue doing beyond school, creates good links

with outside clubs and resources, and finally keeping children safer within the local environment.

We also wish to develop a school mile track so that the children can have access to a daily-mile. This project has been passed over to Paul Arnold to lead as part of his Aspiring Head of School programme and the school is directing him on this. There will be a cost implication for this project but we are able to make it as big or small as needed thanks to the help of Mr Gilbert.

Total spend: £10,100

Total sports premium to be received: £17,000 to £18,000 (TBC as we awaited budget confirmation from Bridge Schools)
